

Wikipedia Interest Brief

3D printing

Question: compare pageview interest from 2024-09-01 to 2026-09-30

Key findings

- en: declining; -28.5% annualized trend; evidence high (89/100).
- ja: growing; +116.8% annualized trend; evidence high (93/100).
- ko: declining; -55.8% annualized trend; evidence high (100/100).

Strongest positive signal for further validation: ja.

Compact comparison

Language	Article/status	Total	Trend	Evidence
en	3D printing	690,964	declining	high
ja	3Dプリント	872	growing	high
ko	3차원 인쇄	6,385	declining	high

Caveats

Wikipedia pageviews are attention, not market size, willingness to pay, conversion, or product-market fit. Cross-language totals are not directly comparable; inspect article coverage and validate with external research.
