

# Wikipedia Interest Brief

astronomy

Question: compare pageview interest from 2024-09-01 to 2026-09-30

## Key findings

- uk: declining; -63.8% annualized trend; evidence high (89/100).

No clear positive growth signal was found in this comparison.

Compact comparison

| Language | Article/status | Total  | Trend     | Evidence |
|----------|----------------|--------|-----------|----------|
| uk       | Астрономія     | 23,322 | declining | high     |

## Caveats

Wikipedia pageviews are attention, not market size, willingness to pay, conversion, or product-market fit. Cross-language totals are not directly comparable; inspect article coverage and validate with external research.
